

## ORWAK 3200-COMBI

Based on our standard baler model 3200 (see product range / green line) this machine can bale packaging material and when using the insert, become an effective Drum Crusher. When used as a baler the 3200 is your ever ready partner with the strength to bale medium amounts of cardboard and plastic.

Controlled functions by a smart logic module  
Optimal for plastics - easy loading  
High speed Cycle time 22 seconds  
Low filling opening  
Press force 12 tons  
Automatic door catch system  
Automatic bale size indicator  
User friendly - operator safe bale ejection system

### Technical Data

#### Dimensions

Size 2520x1000x833 mm

Weight 715 kg

#### Performance

Loading Aperture Size 800x600 mm

Pressure 12000 kg

Cycle Time 22 s

Bale Weight 50 kg-80 kg

Bale Size 800x600x700 mm

Compaction 5:1

#### Electrical Data

Operating Voltage 3x400 V

Control Voltage 24 V AC/DC

Frequency 50 Hz

Effect 3 kW

Connection 5 pin CEE

#### Other Data

Piston Stroke 935

Protection Class IP55

Noise Level 68 dB
